786		<p>Tiberius. AD 14-37. AR Denarius (19mm, 3.68 g, 1h). "Tribute Penny" type. Lugdunum (Lyon) mint. Group 6, AD 36-37. TI CAESAR DIVI AVG F AVGVSTVS, laureate head right; long, parallel ribbons / PONTIF MAXIM, Livia (as Pax) seated right, holding vertical scepter in right hand and olive branch in left, feet on footstool; ornate chair legs, single line below, lightly toned. From a private Collection. The denarius of Tiberius with Pax reverse, is commonly known as the 'Tribute Penny,' the coin to which Jesus referred to when he was discussing the payment of taxes to the Romans: "render to Caesar the things that are Caesar's, and to God the things that are God's" (Mark 12:17). Although there are two other reverse types on the denarii of Tiberius, those were only issued during the first two years of his reign, while the Pax reverse was employed throughout the remainder, making it the more likely coin referred to by Jesus. It was also the most common imperial-issue coin circulating in the region at the time. The term 'penny' is from the 1611 King James translation of the Bible, and was adopted since the penny was the standard denomination of the time. Condition: Very Fine Weight: 3.6 gr Diameter: 18 mm Starting price: 1 GBP</p>

| 1262 |  | <p>CAROLINGIANS. Charles le Simple (the Simple). As Charles IV, King of West Francia, 898-922. AR Denier. Metallum (Melle) mint. + CARLV(retrograde S) REX R (sic), cross pattée / MET/ALO in two lines. Depeyrot 629; M&G –; MEC –; Fécamp 8388-8400. EF, toned, traces of underlying luster, minor deposits. For the most part, the coinage of Charles le Chauve revived the monogram deniers of Charlemagne. However, the Melle mint recalled the mint-name reverse type first issued under Louis le Pieux. These original two line types were issued from 818-822/3 and bear witness to a time of economic expansion in the Carolingian Empire. In his early coinages, Louis attempted to curtail the number of mints to ensure quality. This type, however, was issued in high quality at a tremendous number of mints. No less than 45 locations produced coins of this type, including Arles, Cologne, Quentovic, Pavia, and Venice, to name a few. Melle, as the location of the largest and most productive silver mine in Carolingian territory, was a particularly important mint that produced vast numbers of coins during the period. Due to the high quality of these issues, the type proved to be extremely popular and was issued under Charles le Chauve for a number of decades with the legend META/LLVM before being reissued under Charles le Simple with the legend MET/ALO. Condition: Very Fine Weight: 0.86 gr Diameter: 21 mm
